

GPS Tracking Solutions

-  Sell More
-  Lower Costs
-  Improve Customer Satisfaction
-  Reduce Errors
-  Get Paid Faster

Choosing a software that has a strong telematics integration is vital to success for the modern rental business. integraRental offers integrations with RoviTracker and SolarTrak, providing GPS tracking for your rental equipment. integraRental users can accurately capture metered hour overages on longterms billings, track dispatch trucks, and utilize accurate GPS locations for theft prevention and recovery.

TELEMATICS THAT DRIVE YOUR BUSINESS

- Direct integrations, on both integraRental web and mobile, empower you to accomplish your dispatching and tracking tasks all from one convenient location.
- Automatically and remotely capture metered hour overages on recurring billings for GPS tracking-enabled equipment, ensuring you're getting paid the proper amount, at the proper time. *(See image below)*
- Geofencing for GPS tracking-enabled equipment alerts you when assets leave a user-defined geographic area, increasing equipment theft prevention.

TELEMATICS-ENABLED BILLING FOR INTERIM METERED HOURS

- Enter metered hour values on the Interim Metered Hour grid.
- Enables billing for interim metered hour overages on a monthly basis.
- Obtain metered hour readings, or enter them manually each month, ensuring you never miss another hour of billable time.
- RoviTracker and SolarTrak users can consider Metered Hours overage billing as rental asset item revenue.
